“Never a more complete triumph – never a more thorough and speedy recognition of a great work of art”

The Times, 1846

Whilst the Israelites lament a devastating drought and famine, one prophet, Elijah is summoned to help the plight of a country whose faith is called into question.

Don't miss one of our three special performances of Mendelssohn's choral masterwork given by a quartet of outstanding, international soloists, a mighty chorus and stunning orchestra, all under the inspirational direction of Paul McCreesh, Director of the Gabrieli Consort.
